

Quality auditors W/M à?? talent pool

Description

Company

THE COMPANY:

For over 50 years, the ERBC Group has established itself as a key international partner as a Contract Research Organization (CRO) for pharmaceutical, biotechnological, and chemical companies specializing in the safety evaluation of innovative drugs (pharmacology and toxicology) and chemical compounds. Arising from a strategic merger between two CROs located in Pomezia (near Rome) and Baugy (near Bourges) in 2019, ERBC has since broadened its horizons through various organic growth initiatives and multiple mergers and acquisitions.

Comprising ERBC (non-clinical evaluation), Voxcan (preclinical medical imaging in oncology, infectiology, osteoarticular), OncoFactory (preclinical and clinical evaluation in oncology), Novaxia (histopathology and pathology), and Bioprim (accommodation and breeding of non-human primates), the Group develops a range of unique services from preliminary stages in « Discovery, » regulatory stages to entry into the clinical phase to ensure the best chances of success for the R&D projects of our clients.

Dedicated to patients's health, the ERBC Group combines exceptional scientific and technical expertise with the presence of state-of-the-art (bio)analytical equipment and advanced facilities that are essential pillars of robust and continuous growth.

To support the growth of our Group, we are seeking new talents whose expertise will bring unique added value.

ERBC is looking for Quality auditors W/M to join our group.
